

Forklift Electrical Part

Forklift Electrical Parts - Forklifts together with various forklifts could have particular labels used in some hazardous locations. The mark indicates that this specific model of forklift meets the minimum standards of ANSI/UL 553 meant for electric lift trucks or ANSI/UL 558 meant for internal combustion engine lift trucks.

The application for labels meant for lift lift trucks may be found in National Fire Protection Association NFPA 505 - Powered Industrial forklifts including: Maintenance and Operation, Type Designations, and Areas of Use. Check with your local insurance provider and Fire Marshall for more information concerning the permitted uses of industrial powered forklifts in your application.

If the certain forklift satisfies the outlined criteria, labels can be placed. A labeled forklift would show the type of designation placed on the nameplate and would have a correctly corresponding label put.
