

Clark Forklift Part

Clark Forklift Parts - Presently, there are at least 350,000 Clark forklifts performing globally, and upwards of 250,000 in commission in North America alone. With five main lines across the globe, Clark is proud to be one of the most expansive companies in the industry. Heavy duty vehicles ranging from 1,500lb to 18,000lb capacities, dual fuel, gasoline, LPG, hand-driven trucks, narrow-aisle stackers and electric riders are some of their specialties.

Clark Totalift, handles more than 120,000 particular parts designed for 20 distinctive brands of forklifts and automated equipment. Your local Clark Seller is your complete source for availability of all your parts requirements supplied by Clark Totalift.

Clark features a extraordinary Parts Distribution team. The items warehouses are conveniently located in Changwon, South Korea and Louisville, Kentucky to ensure exceptional service to both their customers and their sellers. For over 90 years, Clark has exceeded industry standards, being one of the most actively advancing manufacturers. Motivated to supply the highest level of value and service to our customers, Clark remains on the leading edge when it comes to improving efficiency and benefiting performance.

Globally, Clark has one of the most outstanding supplier support networks. With over 550 locations globally, seller representation in over 80 nations and 230 locations in North America, their high level of commitment to their clients predominates the material handling market.

Clark proudly remains an innovative leader of the industrial equipment industry, pioneering safety features such as the worker restraint system. This exceptional commitment to safety is now a standard feature on every forklift.

Clark's relentless effort to possess the No. 1 Quality system in the industry is proudly demonstrated by ISO 9001 - Clark, is the first lift truck manufacturer across the globe to be certified with the globally approved quality standard ISO 9001 for all of their manufacturing facilities. Additionally, the ISO 14001 Environmental Management System certificate was awarded to Clark's Korean facility in 2001. This paramount achievement allows Clark to be prepared for any number of environmental restrictions, thus placing them in a prevailing industry position.

Clark has chosen the system of "Lean Manufacturing" at all of its assembly plants for the reason that this technique is particularly economical and allows for minimal use of resources. Developed to guarantee maximum efficiency, this system is intended to find and acknowledge the most efficient methods for production plant management. Clark has concluded this transition of its Korean facility. COPS which is Clark Optimized Production System, equally focuses on quality of product and services and production efficiencies.

By working collectively, Clark's product suppliers and engineers communicate towards enhancing product proficiency while minimizing costs. The contemporary value engineering agenda combines progressive product improvement and delivers improved customer support and service within the industry.
