

## Pulp Clamp

Pulp Clamps - There is a wide range of lift truck accessories obtainable to be able to make the devices much more effective. A snowplow accessory can be mounted to the front of the lift truck. A scoop bucket can be useful whenever the task requires moving sand, gravel, soil or snow. A double block handler allows the forklift operator to pick up 2 loads and then stack them side-by-side. Many of those accessories are really excellent for light to medium tasks.

One more forklift attachment is the package lift clamp, that can lift and move very heavy pallets. Additionally, pallet crane forks may be used so as to lift and transfer pallets with an overhead crane. A drum clamp accessory is helpful for moving very heavy drums from one place to another without having to utilize a pallet. Forklift mounted hoppers enable material to be moved and dumped without having to do it manually. These hoppers are self dumping when the bumper is released.

There are even accessories accessible which could transform the forklift into a commercial broom or mop. Such accessories are ideal for cleaning boat docks, storehouse flooring and parking areas. Forklift mounted platforms come equipped with dual entry doors and could be attached to be able to transport employees from one area to another. The mounted platform accessory is nice for reaching areas which are hard to access, especially if you have merchandise or things stored in out of the way areas or way up high.

Attachments could be a very valuable piece of equipment when installed onto a forklift, transforming a usual lift truck right into a mobile hoist unit. It is most useful when moving unstable or awkward loads. This accessory could either be telescopic, mounted on the carriage itself, or be fixed or even forklift mounted.
